

I am writing to ask you not to replace k-love radio station. I listen to it on the FM station every day here in medford oregon. If k-love were off the air, many people would not be able to listen to a good, contemporary christian station and that would cause a lot of people including youth and kids to be forced to listen to secular stations. I believe k-love is a positive voice to us all and would be greatly missed. sincerely, Jessica westfall
